myBeazley

By applying Beazley's market-leading expertise in specialist insurance, we have created an award winning trading platform. It has been created with brokers, for brokers and allows you to quote, buy and service a range of specialist products for your clients at the touch of a button.

## Lloyd's innovation award

We are proud that myBeazley was recognised as the "Best Non-Product Innovation" at the inaugural Lloyd's Innovation Awards. The judges described myBeazley as:

*"A real and genuine investment in understanding the end-users' needs and thoroughly testing the product".*

beazley

## Benefits include:

### Quick quote indication

We understand that your clients have busy lives and a quick indication of price is beneficial to everyone, which is why the system has been designed to give an indicative quote at the earliest opportunity. We have focussed on a minimal number of questions by removing any data collection that doesn't affect the purchasing process.

### Instant quote and bind

In addition to providing your clients with on the spot quotes, binding and policy documents as standard, myBeazley also gives you the option to offer quote options for a number of different scenarios.

### Access to expert underwriters

If you do need to speak to an underwriter – because you have an unusual risk, require a specific endorsement or need to make a referral – our expert team of underwriters is on hand and authorised to make quick and considered decisions.

### In just two clicks...

Referring a risk? In just two clicks you can add your own documents, whether proposal forms, contracts or claims records.

### Mid-term adjustments

myBeazley is designed to offer real time standard mid-term adjustments without the need to refer to an underwriter. Our underwriters are on hand should you require a bespoke adjustment.

### Auto-renewals

An important part of your client relationship is ensuring that their needs are well served when a policy is due for renewal. That is why the myBeazley system will alert you of upcoming renewals on annual policies and proactively provide all you need through the process, including statement of fact documentation.<sup>1</sup>

### Branded documentation

In addition to allowing brokers to produce all policy documents for their clients at the touch of a button, myBeazley also enables you to incorporate your own branding on a range of literature such as quotes and policy wordings.

### Management information

myBeazley is built on a wealth of data that allows us to provide brokers with information about their client's purchasing patterns, average limits and cover segmentation on request.

<sup>1</sup> An auto-renewal is defined as a risk that does not require amendments following the preceding coverage period and as such can be renewed without additional underwriting involvement.

## Products include:

### Beazley InfoSec

- Industry-leading coverages for emerging data security and privacy exposures facing companies today
- The Beazley InfoSec policy will cover fees and costs for legal and forensic services, notification services, call centre services, credit monitoring, identity monitoring or other personal fraud or loss prevention solutions, and public relations and crisis management.

### Management liability

- Broad appetite for private commercial organisations with annual turnover of up to USD350m
- D&O written on an aggregate claim basis and provides worldwide cover for Singapore and HK domiciled organisations
- Option to include company employment practices cover with separate limit
- Option to add comprehensive crime cover.

## About Beazley

We are different from most of the insurers that you will come across. Our expertise and underwriting appetite lies in specialist risks; combined with a deep understanding of the insurance needs of specific sectors and clients.

Drawing on the diverse talents of our people and working closely with brokers, we focus on markets where customised products, backed by expert service, are truly valued – often involving complex or challenging risks that other insurers shun. We design our products around our client's precise needs.

Beazley plc is the parent company of the Group and we have operations in Europe, the US, Canada, Latin America and Asia.

Our business is transacted through six divisions which each bring their distinct area of expertise to our clients: cyber & executive risk; marine; political, accident & contingency; property; reinsurance; and specialty lines.
